

## Solid Brass Deck / Niche Fixtures

Ginger, Illumicare's louvered deck light, is constructed of solid cast brass and provides soft, glare-free ambient lighting for decks and outdoor living spaces.

When designing the perfect outdoor oasis, Ginger offers deck lighting that creates ambiance, yet provides enough illumination for safe passage through the landscape. By clearly marking stairs, railings, edges, docks, retaining walls and other level changes, Ginger is perfect for illuminating hardscapes and structures with casual, safety lighting.

Ginger's louvered brass lens cover offers just enough light to create a private, comfortable atmosphere for an outdoor patio, built in spa, or outdoor kitchen, turning your landscape into the perfect place to relax or entertain.
