

Solid Brass Post / Sconce Fixtures

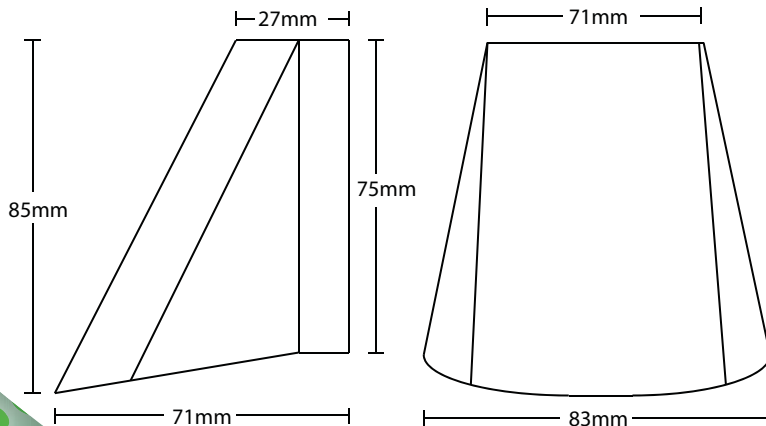

Declan, Illumicare's dual-purpose post light fixture, is constructed of acid-finished red brass and features an adjustable socket to increase, or decrease, the light output depending on your application.

With the option to install this fixture as a post light or flip it vertically for a sconce light effect, Declan is the perfect option for pergolas, multi-level decks, and outdoor kitchen and sitting areas.

This fixture measures 3.34" x 3.27" with a 30 degree shroud for easy mounting under post caps or other small profile deck and hardscape features.

Moving Declan's T5 wedge (912, 918 & 921) socket up or down inside the fixture adjusts the beamspread from two to ten feet wide, ensuring you get the desired amount of light without obtrusive glare - no matter how high or low you choose to mount it.

Declan includes eight feet of UL listed wire, a mounting template for easy installation, and a hollow cavity in the back allowing you to hide a length of wire for future maintenance or socket replacement.
