

# PRECISION ENGINEERED SPOT LUMINAIRES

Our finely machined spot luminaire, Leto, offers a sleek, compact design that adds beauty to any landscape lighting project.

Suited for both commercial and residential projects, this durable fixture is constructed of solid marine grade stainless steel offering superior strength and reliability. The adjustable shroud can be secured in place easily by twisting the shroud snugly on the silicone o-ring gaskets, which also ensures a weather-tight seal against harsh conditions.

Leto's clear convex glass lens offers superior optics while protecting the lamp from moisture and debris.

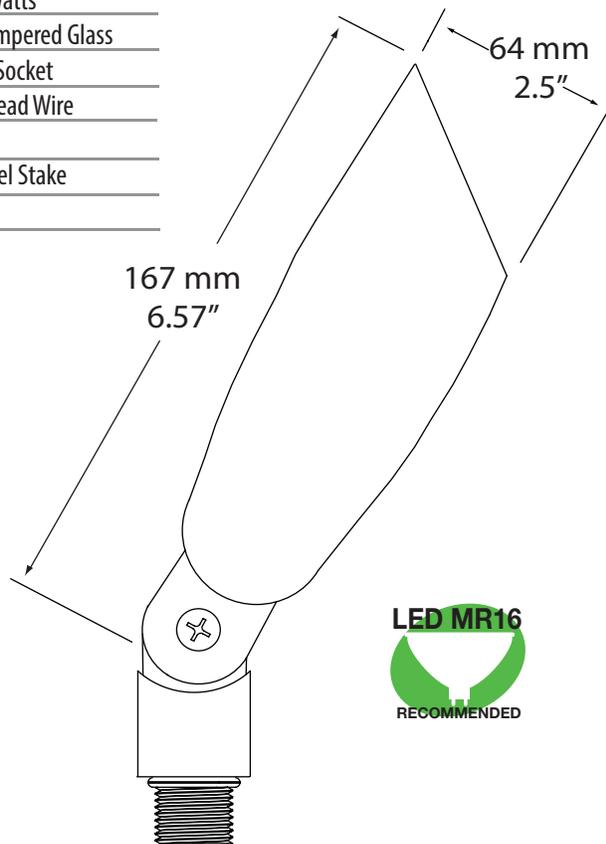

Positioned close to tree trunks, columns and other structures, Leto can illuminate texture and form. Positioned at a distance, this stainless steel fixture is perfect for adding a dramatic effect to dense foliage.
